

Blue Mind

BRAIN WORLD

Does Your Child have any of this Problem ?

- ✓ Score Low Marks
- ✓ Lack of Interest in Study
- ✓ Studying Multiple Time
- ✓ Not Able to Focus
- ✓ Laziness
- ✓ Exam Stress
- ✓ Temperament
- ✓ Nervousness
- ✓ Lack of Motivation
- ✓ Constant Reminder
- ✓ Time Management
- ✓ Endless Tuition

MID BRAIN ACTIVATION PERSONALIZED BRAIN DEVELOPMENT & MONITORING

It is Practical techniques, introverted approach & designed to bring the best out of child. The Rhythm will promote personal excellencies & self regulate the individual's Mind, Emotion, Behaviour Attitude & Character

Who Are We...?

We are group of professionals involved in various Human development activities and have valuable experience in the filed of training individuals for personal development. Blue Mind Brain world introduces the scientifically proven Dermatology Multiple intelligence Test, Which is useful tool for resolving issues through the Mid Brain Activation concept in Odisha.

Exploring the real potential of brain. Based on that test we suggest activity to take maximum benefit of brain and we also introduced one workshop called brain development workshop which focusing on brain stimulation process. Our center offering professional Mind development workshop program aspiring to uncover the talent potential of our younger generation, with the firm belief that proper brain training will be immensely beneficial for children in unleashing that wondrous creativity within them, thus further complementing the country's commendable education system.

It is our initiative towards learning techniques, aimed at bringing meaningful transformation and a positive change in the life of every human being in the world by based on extensive researches and year of training experience carried out in Japan Singapore and Indonesia our comprehensive training program is designed to empower its student (5-15 yrs. old) with the tools that will increase their memory, concentration, Focus, Other Skills and the key that will unlock their true potential to win the world! Helps you in knowing your personal learning style helps you in career conselling, maintaining or building relationship etc. And we have our conseling wing of experts for right guidance.

RESULTS AFTER ACTIVATION

- Interest in Studies Improved by 90%
- Increase, Memory Power by 60%
- Alertness, Focus & Concentration by 85%
- Brain Activeness Enhancement by 68%
- Enhanced Problem Solving Ability
- Improved Decision Making Ability

ACTIVATION HELPS IN BUILDING

- Incomparable IQ
- Emotional Stability Force Magnificent Learning
- Super Sensory Perceptions
- Multiple Languages Mastery
- Superb Intuition
- Enhancing Hidden Possibilities
- Improved Absorption Capability
- Creative talent
- Photographic Memory
- Super Intelligence
- Enhancing Intellectual Powers
- Generates Sense of Oneness
- Great Calculation Speed
- Motor Confidence
- Entering the 'Peak Learning State'
- Enhancing Child's Concentration

INITIAL RESULT IN 2 DAYS

BENEFITS FOR STUDENT

- Autonomic Behaviour correction
- Goal Setting for Academic And Sports
- Experience the Power of 6th Sense
- Development Monitoring & Guidance
- Notes & Workbook Provided

BENEFITS FOR PARENTS

- Fresh Parental Workshop
- Stress Free Parenting
- Enhance parenting Satisfaction
- Extended Coaching & Counseling
- Happy, Stress Free & Successful Parenting

MID BRAIN ACTIVATION PROGRAM

(For Children Age 5-15 years)

I can still do a lot

OUR MISSION

We specialize in the study of the brain. its application and development to evaluate and design, programs that will foster and nurture the young's multiple intellectual development, intense research and innovation has enabled us to provide a vibrant learning environment that will stimulate realize the full potential of every student.

THE KEY TO ACCELERATED LEARNING

Meet the needs (physical, emotional, intellectual, spiritual) Maximize the brain power by creating an environment that is happy, relaxed and enthusiastic and provides higher sensory perception.

ABOUT OUR TRAINING TECHNOLOGY

The training methods used by "Blue Mind Brain World Education" Mid Brain Activation Academy are based on our research and development. We are using a wide variety of sound waves our a different length as to maximize the activation, vibration caused in the brain and production of hormones necessary to create lasting results.

OUR APPROACH

Human being learn and retain for personal development if both, left and right of the brain are being stimulated; We at Blue Mind Brain World believe in managing the balance of left and right brain. We use the Powerful right brain approach in all our training methods. thus laying a solid and strong foundation for higher learning for all the students who come to be trained by us. When the potential of right and left brain are properly utilized, "Awaken the genius within" becomes possible. We would like to nourish the new generation with empathy and intelligence to build them to be the most ideal citizens. Blue Mind Brain World is going to be the training platform for people, both young and old to be maximize their brain capabilities. We aim to "Awaken the genius within" which remains locked due to the left brain approach of our education system and old-age stereotype learning methods.

What is Mid Brain?

Brain Stimulation is one that is able to active the brain waves called alpha-theta in a child, where these waves are able to activate the super intuition, and this is directly proven. What makes it interesting, exciting and raises controversial as well as lifting up its selling price is the active child's brain waves which is in fact able to make the child do some activities with his/her eyes closed. The children are able to read, guess anything with eyes closed, such as guessing a card, color, reading newspaper's headline, guessing something inside a close box, guessing something behind a wall, walking / cycling/shooting with eyes closed. playing games on a PC with eyes closed, etc. according to the scientist's reviews, man only incorporates less than 6% of his brain capacity. This shows how awesome a human can be, if it's utilized more. Although man only uses less than 6% that are really extraordinary. You would surely agree if I said that as era changer from time to time and through centuries, it needs even more sophisticated human brains, since the challenges will be more difficult in the future, compared to now, therefore man needs to reinforce his brain more sophisticated than before, in order to be able to overcome the challenges. Human brain consists of right brains are in equilibrium. But this is a rare condition because most people develop and be mature while dominantly using their left brain. How can we make it balance, between the left and right brains? The answer is that the brain must be stimulated since our childhood, i.e., between the age of 5-15 years. We can probably do it above 15 years old, only that the level of failure is higher, even more for those who are already mature or old, only that the possibility of failure is higher for those who are already grown up or old.

NON THEORY

NON-MOTIVATION

RESULT IN 60 DAYS

70%-90% IN 60 DAYS

4X INCREASED FOCUS IN STUDIES

2X FASTER MEMORY

5X CONCENTRATION

3X ACTIVENESS

ERADICATION OF NEGATIVE BEHAVIOR

COMPLETE HOMEWORK WITHOUT SUPERVISION

100% PRACTICAL

7 DAYS-7 BENEFITS

BRAIN ACTIVENESS

RESETTING MIND

FOCUS & CONCENTRATION

CREATIVITY

MEMORY POWER

STABILIZING BOTH BRAINS

ALPHA LEVEL MIND

FAQ

HOW OLD SHOULD MY CHILD

Midbrain Activation Works best at enhancing imagination power, Intuition and super intelligence among, children in the age group of 5-15 years.

IS THE COURSE THEORETICAL?

No, the course does not involve any theoretical part.

HOW TO START PRACTICING?

Practice session requires settled and definitive environment. Start off the practice program by deep breathing (10 times) so as oxygen is maximized in the brain. Then blindfold a child and start to use super sensory perception for sensing objects and things.

WHAT IF I DO NOT PRACTICE?

Experts suggest child to practice blindfolded techniques once in a day to acquire stability and to make proper utilization of Midbrain Activation Programs.

WHAT SHALL WE DO AFTER THE COURSE?

By Practicing Much better would be the results and destination goal has to be archive and Midbrain Activation can occur.

WHAT ABOUT THE PRACTICE SESSIONS?

Just Start with colors and then to move on books, write and drawing capability and then shift on to objects which are farther away.

HOW DO A FEW STUDENT SEE BEHIND?

While Having midbrain activation programme child acquire the ability to 'sense' and 'feel' because brain works like radar sending signals to the brain and eventually they are able to 'see' behind too.

CAN ANY BLINDFOLDED CHILD SEE THROUGH?

Experts suggests to add a layer of tissue under blindfold to plug any gap, if our children is frequently peeping through eyes.

WHY ARE THE CHILDREN BLINDFOLDED?

Blindfolding enhances child's concentration by developing QSR ability which absorbs the information through the waves emitted based on the theory of quantum mechanics that everything around us has its own wave pattern.

WHY CHILD'S PERFORMANCE OFTEN UNSTABLE?

Child's Brain require at least 45 days to adapt changes after midbrain activation programs. Stability will be improved after regular predeceasing programs.
